ANSON

Henan Anson Steel Co., Ltd

Welcome to Anson!

About Anson

Henan Anson Steel Co., Ltd, a subsidiary of AGICO Group, has obtained a great success on exporting steel products. With guaranteed Grade-A quality, excellent performance and competitive price, we supply steel plates, tool steels, steel pipes and other steel products.

The steel products we mainly export are high value-added, including medium steel plates, shipbuilding steel plate, steel pipes, hot rolled coils, cold rolled coils, galvanized steel coils, prepainted steel coils, etc. They've been exported to overseas distributors, warehouses and factories in USA, Europe, Bangladesh, Sri Lanka, Egypt, Saudi Arabia and other countries & regions.

We have stable supply from advanced mills and large quantity of various products in stock. The warehouses where we stock our goods are full-fledged. We have a professional technician team, which not only has decades working experience in steel industry, but also has a deep& clear insight of the technology condition and manufacturing state to Chinese main steelmills & steelmakers.

With the high efficient supervision system and professional experience, we offer our efficient and considerate service to the clients across the world. We hope sincerely to become your Chinese supplier and partner.

MENU

01、Shipbuilding Steel Plate

We can supply you with shipbuilding plates in the following specifications：
Thickness: 3~200 mm
Width: 1500~4000 mm
Length: 5000~18000 mm

1,Hot rolled medium steel shipbuilding plate With Classification Society Quality Authentication from LR, ABS, NK, GL, DNV, BV, KR, RINA, CCS

2,Hot rolled High Strength shipbuilding plate AH32,AH36,DH32,DH36,EH32,EH36,AH40, DH40

Ⅰ. Grade and Chemical Composition (%)

Grade	C %≤	Mn %≤	Si %≤	p %≤	S %≤	Al %≤	Nb %≤	V %≤

02、 Hot Rolled Steel Plate

1、Specification Range
Thickness：8mm-300mm
Width：1500mm-4020mm
Length：3000mm-18000mm
Maximum Weight for Single Order：25 Ton

2、Status on Delivery: According to the performance and the requirements from clients, the status on delivery of steel plate can be hot rolled ,controlled rolling, normalizing,annealed tempering, normalizing + tempering, hardening + tempering , etc.

3、flaw detection & Through-Thickness Property
We are capable of manufacturing the steel plate with additional flaw detection and Z15-Z35 tear resistance (Through-Thickness Property), also can supply you with Z-Direction Steel Plate acoording to ASTM、A770 standard.

Steel Plate for Boilers and Pressure Vessels

Application:Widely used in petroleum, chemical industry, power plants, boilers and other fields, such as to produce reactors, heat exchangers, separators, spherical tank, oil tank, LPG tanks, nuclear reactor pressure shell, boiler drum, liquefied petroleum gas cylinders, hydropower high-pressure pipes, Turbine vortex shells and other equipment and components, etc.

High Strength Low Alloy Steel Sheet

Application: To manufacture factory building, civil building and all kinds of engineering machinery in mine industry and various types of civil construction, such as drilling rig, electric shovel, powered wheel tipper, mining vehicles, excavators, loaders, bulldozers, industrial blowers, various types of cranes, mining machinery and equipment, (such as hydraulic support and other structural parts).

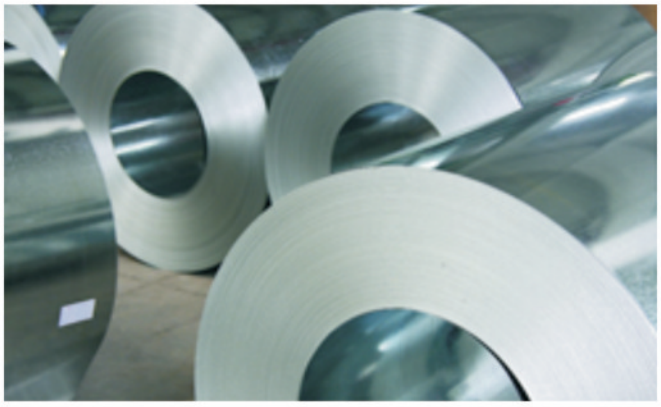
8.0-10.0	-0.8,+0.6

03、Cold Rolled Steel Plate



Low carbon and ultra-low carbon steel plates and strips. According to its application, the cold rolled low carbon steel and ultra-low carbon steel can be divided into common quality, drawing quality, deep drawing quality, extra-deep drawing quality and supreme extra-deep drawing quality.

Applications and Features:

Application	Features	Steel Grades, for example
Commercial purposes(CQ)	With some ductibility, they are suitable to simple forming, bending or welding	Dc01, SPCC, BLC
Drawing(DQ)	With more ductibility than the common ones, they are suitable to manufacture parts through drawing and relatively complicated deforming	Dc03, SPCD, BLD
Deep drawing(DDQ)	With more ductibility and homogeneity than the drawing ones, they are suitable to manufacture parts through deep drawing and complicated deforming.	Dc04, SPCE, BUSD
Extra-deep drawing(EDDQ)	With more ductibility and homogeneity than the deep drawing ones, they are suitable to manufacture parts through extra-deep drawing and more complicated deforming.	Dc05, BUFD
Supreme extra-deep drawing(SEDDQ)	With more excellent drawing capability than the extra deep drawing ones, they are suitable to manufacture parts through supreme extra-deep drawing and extremely complicated deforming.	Dc06, BSUFD

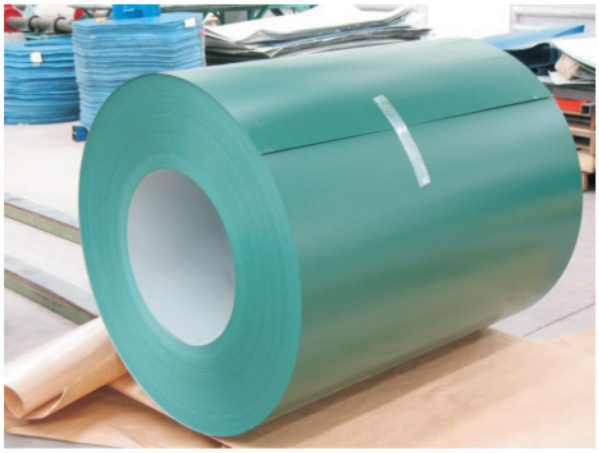
5.Surface Quality

Grade	Code No.	Features
Relatively high-grade finishing surface	FB(O3)	It is allowed for the existence of a few surface defects which will not affect forming and coating & plating adhesiveness such as minor scratch, impression, pit, roll mark and oxidation tint.
High-grade finishing surface	FB(O4)	FB(O4) One side of relatively good quality is free from any remarkable defect visible and the other side must reach FB requirements at least.
Ultra high-grade finishing surface	FB(O5)	One side of relatively good quality is free from any defect, namely appearance quality after painting or electrogalvanizing is not affected, and the other side must reach FB requirements at least.

04、Prepainted Steel Sheets



Application

Building roof, component of roof structure, mask plate of balcony, windowsill, newspaper booth, garage, roller shutter door, heater, drainage pipe, etc.

Appliance fridge, washer machine, switch board, air conditioning, microwave, bread machine, copier machine, automatic merchandising machines, electrical fan, dust collector, etc Furniture lighting hood, cabinet, desk, shelf, counter table, billboard, medical facility, etc

Transportation auto ceiling, outer shell, internal plate, tractor, electrical car, container, express way bounding wall, ship cell plate, etc.

Others musical instrument shell, dust bin, billboard, clock, camera, gauge etc.

Product name:	Prepainted galvanized Coil
Zinc Coating	60-275g/m2
Grade	TSGCC
Thickness	0.25mm – 0.8mm
Width	914mm – 1250mm
Coating	Top coat 5 + 15um , 5+ 20um, Back coat: 5-15um
Colour	RAL No. or Sample
Standard	JIS G3302

05、 Tool Steel

P20 Plastic Mould Steel

A:Specification

Product	Material	Spec.(mm)	Length(mm)	Remark
Plastic Mould Steels	1.2311(Plate)	20-75*2000	3000-10000	Hot Rolled,Black Skin,Pre-hardened
Product	Material	Spec.(mm)	Length(mm)	Remark
Plastic Mould Steels	P20(Sheet)	30-80*1800-2300	3000-10000	Hot Rolled,Black Skin,Pre-hardened
Plastic Mould Steels	P20(Flat)	20-45*255	3000-5800	Hot Rolled,Black Skin,Annealed

B:Performance Table

General Information	Pre-hardened grade specially designed for the plastic mold industry deliver in hardened and tempered condition (300HB),subsequent heat treatment is not necessary. Specially employed for the plastic mold industry and adapted ford polishing and chemical(low sulphur content)					
Comparable Standards	AISI/SAE	DIN	W.N	AFNOR	BS	SIAU

Hot Work Steels		30-48*510	3000-5800	Electro-slag

B:Performance Table

General Information	Very good retentively of hardness and toughness at elevated temperatures. Compression strength is very good and it is insensitive to thermal shocks. Wear resistance is than 2343. Good mechanical property in the annealed condition.

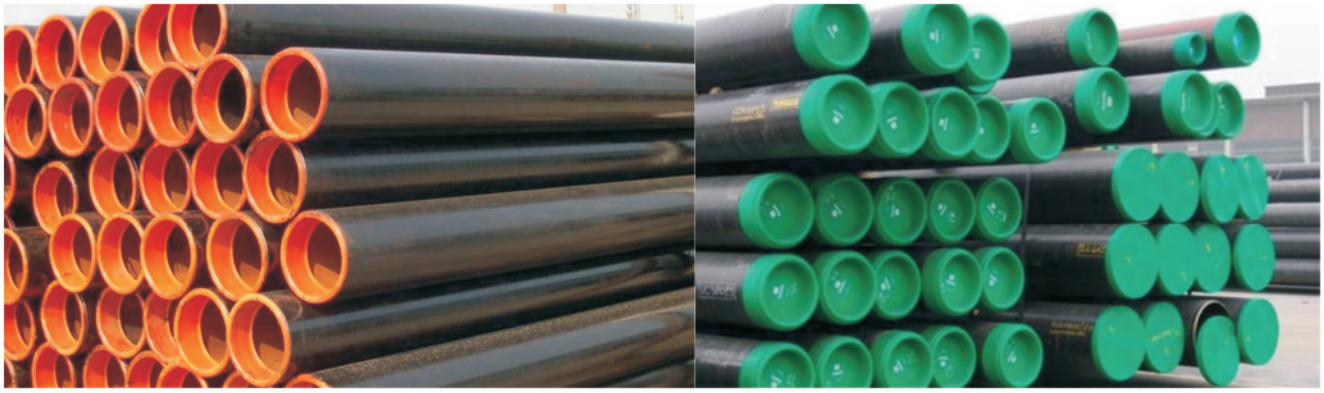
API SPEC 5L Steel Pipe Line



Specification for Line Pipe

GB/T 3639 Cold drawn or cold rolled precision seamless steel tubes

GB/T 8713 inside precision seamless tubes for hydraulic pressure and pneumatic services

Application: for atuo use; for machinery use;/Oil cylinder tube;/Motorcycle shock reducer steel tubes;/Auto shock reducer inner cylinder

Size(mm):0. D. : Φ10.3～609.6mm

W.T: 1.7～36mm L:max 12000mm

Features Specifications:

Line Pipe	
Application:	It is used for conveying gas,water,and petroleum of both the oil and natural gas industries.

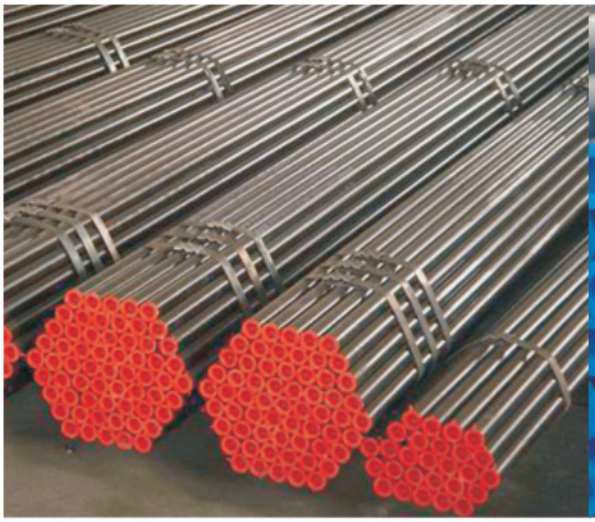
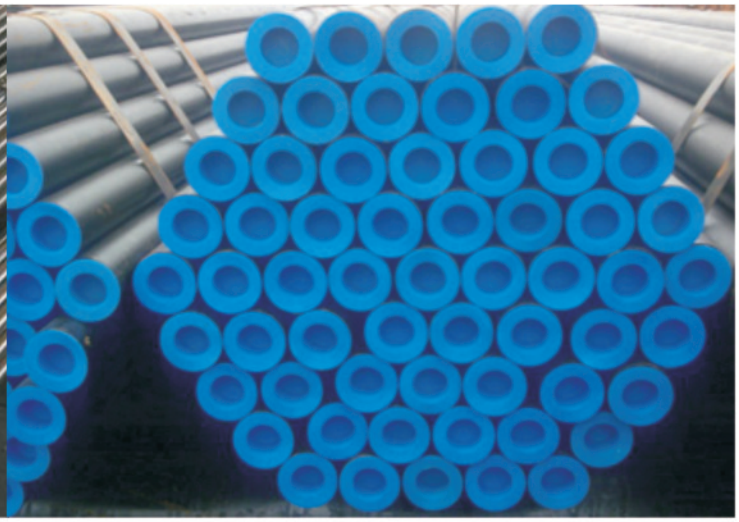
ASTM SA213 Alloy Steel Tubes





Seamless Ferritic and Austenitic Alloy Steel Tubes for Boiler, Superheater and Heat Exchanger

Size(mm): O.D.: 28-168

W.T.: 2～30 L: max 12000

Description:

1、Specification: ASTM A213(ASME SA213)

2、The major products use: apply to the overheated boiler and used in the minimum thickness of ferrite and seamless steel pipes and heat exchangers used in austenitic pipe

3、The main products of steel / steel-class:T11;T22

4、Specifications: diameter: 320 to 127 mm thickness: 0.4 to 12.7 mm Length: 6m above, and, in accordance with customer demand, we can supply other specifications of steel pipe

5、Chemical and mechanical properties

Alloy Steel Pipe Pipes Tubing Features Specifications:

Standard Specification for Seamless Ferritic and Austenitic Alloy-Steel oiler, Superheater,and Heat-Exchanger Tubes	
Application:	For manufacturing wall panel,economizer,superheater and steam pipeline of boilers
